

Breaker

## GSH 16-30 Professional

### Advantages: GSH 16-30 Professional

#### Extreme power for 13 tons of material removal per day

- Highest material removal rate due to 41 J single impact force and 1750 watts motor power
- Longest lifetime due to robust design and use of high-quality materials
- Vibration Control for reduction of harmful vibration and, therefore, longer operating time and greater ease of use
- Practical: the GSH 16 Professional can be easily and conveniently transported on rollers in the trolley that is supplied as standard
- Excellent handling thanks to the large handle
- The on/off switch is perfectly positioned, which prevents the tool from being switched off unintentionally

- **Technical data: GSH 16-30 Professional**

|                                   |                        |
|-----------------------------------|------------------------|
| <b>Rated power input</b>          | 1.750 W                |
| <b>Max. impact energy</b>         | 41 J                   |
| <b>Impact rate at rated speed</b> | 1.300 bpm              |
| <b>Weight</b>                     | 16,5 kg                |
| <b>Length</b>                     | 760 mm                 |
| <b>Width</b>                      | 255 mm                 |
| <b>Toolholder</b>                 | 30 mm internal hexagon |

- **Noise/vibration information**

- Measured values determined according to EN 60745.  
Total vibration values (vector sum of three directions)

| <b>Chiselling</b>                  |                       |
|------------------------------------|-----------------------|
| <b>Vibration emission value ah</b> | 13.0 m/s <sup>2</sup> |
| <b>Uncertainty K</b>               | 2.0 m/s <sup>2</sup>  |
