

KMSBRC

Mgnt. Drill M/c using Broach Cutter

Features

- High holding power of magnetic base for better grip.
- Internal coolant feed system for better cutting action.
- Stabilizing rod for setting offset levels.
- Compact and elegant design.
- Twin handle body design for ease of lifting machine.
- Illuminated toggle switches for magnet and drill.
- Dovetail guide ways for more accurate hole drilling.

Model No.	KMSBRC
Specification	Mgnt. Drill M/c using Broach Cutter
Class of Tool	Single
Motor Power	1100W
Magnetic Holding Force	1500N
Magnetic Base Foot Print	165mm × 235mm
Capacity to Fit Core Drill	62mm max
With 19.5mm Wddon Shunk Drilling Capacity (MT3)	32mm max
Maximum Stroke	315mm
Working Stroke	110mm
Net Weight (approx.)	39Kg
Dimensions	576mm × 510mm × 180mm
Full Load Revolutions	270r/min
Maximum Thickness of MS Plate Can be drilled	10mm*
